

## Water Quality Monitoring with Orange County Boy Scouts

Boy Scout Leaders, RWQCB staff, and other public agency staff planned a Citizen Water Quality Monitoring Event on October 20th, 2002 in support of the Year of Clean Water. The event took place at Aliso Beach at the mouth of Aliso Creek in the City of Laguna Beach. Approximately 125 people, including boy scouts, their families and neighbors, and County of Orange employees, participated in monitoring and sampling the water along the Beach and Creek.
